FLOOD BULLETIN NO. 3 (TY UWAN-FUNG-WONG)	
PAMPANGA RIVER BASIN & ALLIED RIVERS	
ISSUED AT 6:00 AM, 11 NOVEMBER 2025	
(VALID UNTIL THE NEXT BULLETIN AT 6:00 PM THIS AFTERNOON)	
Average Basin Rainfall as of time of issuance	
Past 24-hr observed	Forecast 24-hr basin rainfall
14.30 millimeters	5-10 millimeters
BASIN'S LIKELY RESPONSE / RELATED IMPACTS & AREAS LIKELY TO BE AFFECTED	
Rio Chico River at Zaragoza Station (N. Ecija)	Now at 4.20 m. above 4.00 m. Alarm WL; slow rise to continue and less likely to reach the 5.00 m. Critical WL until this afternoon
Pluvial floods (ponding of rainwater along roadways & croplands) – Lapaz, Zaragoza, Licab, Aliaga, Quezon, San Antonio	
Pampanga River at San Isidro (N. Ecija)	Now at 6.98 m. above 6.00 m. Alarm WL; had level-off and slow recession to continue until this afternoon
Pluvial floods (ponding of rainwater along roadways & croplands) – Jaen, San Isidro, Cabiao, San Antonio	
Pampanga River at Arayat Station (Pampanga)	Now at 7.91 m. above 6.00 m. Alarm WL; to level-off as slow recession in progress until this afternoon
Pluvial floods are expected to occur (slightly submerged roads, croplands) in low-lying areas within - Arayat, San Simon, San Luis	
Candaba Swamp Area at Candaba station (Pampanga)	As of yesterday at 4.00 m. above 3.50 m. Alert WL; slow filling-up of swamp water, a very slow rise to continue and likely to reach 4.50 m. Alarm WL today (from Candaba MDRRMO)
Combination of Pluvial and Fluvial floods (submerged roads, croplands and houses) in some areas within the swamp; San Miguel, San Idefonso, San Rafael, Candaba, San Luis, San Simon, Apalit	
Pampanga River at Sulipan Station; Pampanga Delta areas (Pasac-Guagua Sub-Basin)	Now at 2.97 m. above the 2.60 m Alert WL; fluctuating WL (tides & upstream flows) slow recession this morning. High tide in effect in the afternoon.
Coastal & riverside floods (fluvial) due to High tides & from the relatively upstream river flows towards the lower sections of Main Pampanga River might affect the riverside areas of: Apalit, Macabebe, Masantol, Calumpit, Paombong and Hagonoy; Pluvial floods (partly submerged roads, croplands) affect the Pasac-Guagua areas of: Minalin, Guagua, Sasmuan , Lubao, Sto. Tomas and other adjacent coastal towns	
The public and the Local Disaster Risk Reduction and Management Councils (LDRRMOs) along the main Pampanga River are advised to undertake preparedness & response activities to mitigate the immediate and ongoing impacts of the prevailing hazards associated with TY UWAN (FUNG-WONG); continue to monitor heavy rainfall warnings, weather advisories, and other products issued by PAGASA.
